

## PERSONAL INJURY & CLINICAL NEGLIGENCE

Members of Chambers have extensive experience in all forms of personal injury work, covering:

- industrial accidents
- occupational diseases
- road traffic litigation
- occupiers' liability
- consumer protection and product liability
- highway claims

Representation in medico-legal claims is provided to all levels of complexity and value, including the representation of Claimants with brain damage and other injuries of the maximum severity. Members also provide expertise in the defence and prosecution of criminal health and safety cases.

Chambers undertakes all aspects of clinical negligence work. Extensive experience includes the representation of health authorities and trusts, medical insurers and patients as well as individual medical practitioners. Professional disciplinary hearings are a particular area of specialism.
